

I used to receive 4-5 telemarketing calls per day before this list was created and now I almost never receive any. It got to a point that I was screening all my incoming calls. The do not call list in NJ is great and I can't see why the Federal Government should help Telemarketers begin clogging up our phone lines again. We should have some right to peace and quit in our homes without constant interruption from Sales People trying to badger us into purchasing their product on a daily basis! After a long day at work, the last thing I need is to fight off multiple phone calls from Sales People who can't take no for an answer.
